

It's all about **THE RING.**

The Jostens Sports Jewelry Collection

It's time to create the ultimate reward.

THE RING. It's what you've worked for day after day, year after year. You've earned the right to wear it. And now it's time to truly make it yours.

Take a look at the following pages and find the perfect design to start bringing your team's unique story to life. You'll find everything you need to create your Championship Ring in this catalog, or you can contact your Jostens representative to create your design online.

So take a deep breath, revel in your victory a bit longer, then turn the page to begin your personal Championship Ring experience.

Stone Cuts

Smooth

Faceted

After you've determined the size and style of your ring, it's time to bring it to life with stones and ornamentation.

Jostens offers a wide variety of stone colors, shapes and cuts to make your ring as unique as your achievement. If color is not your thing, we offer an assortment of inserts, crests and unique manufacturing techniques and finishes to make the top of your ring stand out from across the room.

Ornamentation

Encrusting

An emblem, gold or silver in color, that is deeply embedded into a smooth stone.

Crest

An emblem attached to the top of a stone to look three dimensional. A crest can hold stones or color enamel.

Tube Set

A single, centered cubic zirconia or diamond set in a smooth stone.

Metal Top with Sheer Ice™

An emblem that is surrounded by cubic zirconias or diamonds on a white metal top.

Finish

Metal Qualities

Lustrum®

This durable white metal alloy gives you sparkle at an affordable price.

Suncast®

Same great characteristics that Lustrum® offers, but yellow in color.

Silver Elite®

An alloy with silver that gives your ring an exceptionally bright white look.

Solaris Elite™

This rock-solid yellow metal alloy is dazzling and affordable.

White Gold and Yellow Gold

Precious metals available in 10K, 14K and 18K—the higher the karats, the higher the percentage of gold that is in your ring.

*See jostens.com for more information on metal composition.

Lifetime Limited Warranty

Jostens offers one of the most liberal, all-inclusive warranties in the industry. By far, the majority of adjustments are provided at no cost.

Resize

Virtually all resizes are covered for the original owner if the ring is in resizable condition. Change in a customer's finger size and errors in the original size judgment are covered. A few resizes require a new item; this will be determined by Warranty Service.

Refinish

Re-antiquing rings that were previously antiqued is covered.

Clean and Polish

Cleaning and polishing of jewelry are covered.

Replace Stone

Any simulated stone will be replaced free of charge because of a defect in materials or workmanship. Most simulated stones chipped through normal wear will be replaced with identical stones free of charge. If the identical stone or stone cut is not available, a stone of similar appearance will be offered (color and shape may vary slightly).

Repair Defects in Workmanship or Materials

Defects in materials or workmanship present at the time of original delivery will be repaired, or at Jostens discretion the product will be replaced at no charge if repairs cannot be made. If the product is no longer available, a similar design of comparable value will be substituted.

Go to jostens.com for more information.
